

- 0. GRANICE:**

0.1. Teritorijalne granice

  - Administrativna granica naselja

0.2. Ostale granice

  - Prostor ograničenja (ZOP)
  - Obalna linija
  - Obuhvat neurednog dijela GP-a za kojeg je obavezna izrada UPU-a UPU ili DPU koji je na snazi

**1. PROSTORI/POVRŠINE ZA RAZVOJ I UREĐENJE**

Gradjevinsko područje

Neuređeno dio građevinskog područja

**1.1. Razvoj i uređenje naselja**

  - Izgrađeni dio GP naselja
  - gusto izgrađeni dio
  - Neizgrađeni dio GP naselja
  - Mješovita namjena: M1 - pretežito stambena
  - Poslovna namjena: K1 - pretežito uslužna
  - Ugostiteljsko turistička namjena: T3 - kamp
  - Javna zelena površina: Z1 - javni park

izgrađeno / neizgrađeno

**1.2. Razvoj i uređenje prostora/površina izvan naselja**

  - Poslovna namjena: K1 - pretežito uslužna, K3 - komunalno servise
  - Ugostiteljsko turistička namjena: T1 - hotel, T2 - turističko naselje, T3 - kamp
  - Sportsko rekreacijska namjena: R1 - sport, R2 - rekreacija
  - Zaštitna šuma - ŠZ
  - Zona tradicijskih naselobina
  - Groblje

izgrađeno / neizgrađeno

**2. PROMET**

**2.1. Cestovni promet**

  - Državna cesta (postojeća)
  - Županijska cesta (postojeća)
  - Lokalna cesta (postojeća)
  - Koridor planirane prometnice izvan naselja
  - Planirana nova prometnica ili rekonstrukcija postojeće

**2.2. Pomorski promet**

  - Morska luka otvorena za javni promet (luka lokalnog značaja)
  - Komunalni vez (izdvojeni dio luke otvorene za javni promet - planirano)
  - Privezište u zoni ugostiteljsko-turističke namjene (planirano)
  - Kopneni dio luke

postojeće / planirano

**2.3. Željeznički promet**

  - Pruga velike propusne moći (potencijalna)

**3. UVJETI KORIŠTENJA I ZAŠTITE POVRŠINA**

**3.1. Područja posebnih uvjeta korištenja**

  - Zaštićena sakralna građevina
  - Zaštićena civilna građevina
  - Pučka graditeljska cjelina - etnografski značajan sklop
  - Pučka graditeljska cjelina - etnografski značajno područje
  - Sportsko rekreacijska namjena:
    - uređena morska plaža
    - prirodna morska plaža

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Merilo katastarskog prikaza:<br>1:5 000                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | Otkula predstavničkog tijela o donošenju plana<br>"SL. GLASNIK ZADARSKA ŽUPANIJE" br. _____<br>_____ 2024. godine |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           | Odgovorna osoba za provedbu javne rasprave:<br><br>Marina Mirović, mag. arhitekt.                                 |
| Suglasnost za Plan prema Članku 108. Zakona o prostornom uređenju (NN br. 153/13, 65/17, 114/18, 38/19, 147/19, 148/19, 150/19, 151/19, 152/19, 153/19, 154/19, 155/19, 156/19, 157/19, 158/19, 159/19, 160/19, 161/19, 162/19, 163/19,
